Bow handle	Red Samick ILF	70

Case of spare equipment	10-12 bow stringers approx 25 arm guards approx 20 tabs	100
-------------------------	---	-----

Replace items urgently require for beginners course Bows for beginners course With return of rental bows we would have enough. However this allows no spares for contingencies and would involve reclaiming bows from new members who are struggling to source their first bow (national shortage) CUB have offered a loan of beginner bows We have reserved the right to ask for loan bows to be returned. Bow replacement Revaluate after June course and purchase replacement nearer time of next course Insurance Probably not worth claiming due to potential increased premiums CCTV Probably not feasible Look at having a sign on shed "CCTV monitoring in use"	Mark Y to purchase 12 bracers 15 tabs small, med and large 12 slings 6 stringers Jack borrow 6-8 bows from CUB/ Jollys Patrick. - reclaim bow from Ben W (not renewing) - flag to Dodds we may need their bows. Patrick- CCTV sign- ask Will Jack look into CCTV Mark- look into UV marker pen for identifying any new kit (plus maybe black light to be able to read marking)
Bow storage	Mark Y has taken all bows home Except LH ILF riser and assorted limbs (with Patrick) Long term Mark and Seb A have offered to house bows.
	During course- bows will need to go home with someone. (TBD)
